Agenda Items
Treasury Guild break

- Decision - Next week Treasury Guild takes collective break

Ambassador Reward Distribution Timing

- Description - Ambassador Role from now on is rewarded without any expectations, we could do that start of month
- Decision - Ambassador rewards will be distributed at the end of month
- Insight - This gives us time to look at the contribution made and we can collectively block rewards if we think the rewards would be wasted otherwise

Treasury Rule Documentation

- Description - How do we document the Treasury Management rules?
- Decision - We will store most up to date info in the Treasury Management GitBook section
- Dework Action - Document Treasury Management Rules for GitBook
- Action - create "decision document" template for important decision that affect entire ambassador program
- Insight - Treasury Guild should make sure documentation is up to date
- Insight - Treasury Guild can outsource their tasks to other workgroups

Communication Rewards

- Description - In previous quarter we introduced the task that describes the time spent in social tools like Discord
- Decision - From now on if you think its appropriate and specific action you do, create a fund request for this
- Insight - For some workgroups and roles it makes more sense to include it in

Archival Workgroup Ambassador Rewards

- Description - Some ambassadors do not like to share their time spent
- Decision - We don't reward Ambassadors Rewards trough normal distribution if we do not recognize time spent
- Decision - For month of June Fund Request can be created by Ambassadors who time was not recognized
- Action - What are other ways to measure value? (other than time)
- Insight - From Quarter 3 there are no longer requirement to recognize time spent
- Insight - based on meetings it looks like members are rewarded ~50$ per hour

Next elegant steps (general action items)

- Complete newly created tasks in Treasury Guild Dework board
- Enjoy next weeks break from Treasury Guild :D
- Even though there is no longer the need to provide your time, we still recommend you to do so where applicable to enhance our collective ability to estimate time consumption on specific projects and tasks

SingularityNET-Archive Issues

how should we differentiate them and who should do that for the month of June → we dont reward Stephen for Ambassador Rewards unless he does Funds request specifically for that

Risk → After removing limit, we may be start using too much hours to reward the rest of community
